## THE BIG STRIKE IS ON.

Thirty Thousand Men Quit Work In the Sheet Steel and Steel Hoop Mills.

AS MANY MORE MAY BE AFFECTED.

Issues Involved and Speculation as to the Outcome of the Struggle Between the Union and - the Mighty Trust.

Pittsburg, July 1.—As a result of the refusal of the representatives of the American Sheet Steel company and the American Steel Hoop company, subsidiary companies of the great United States Steel corporation, to sign the workers' new scale at Sat urday's conference, circulars were sent out from the national headquarters of the Amalgamated Association of Iron, Steel and Tin Workers, declaring a strike at all the plants of the two combines. The great strike is now on, but it will be several days be fore its actual extent is known. At the outset, however, over 30,000 will be involved, as follows: Aetna Standard sheet mills, Bridgeport, Ohio, 2, 500; Midland steel mills, Muncie, Ind., 1,000; Meadow rolling mill, Scotdale, Pa., 400; Saltsburg, Pa., rolling mill, 300; W. Dewees Wood mills, McKees port, Pa., 1,000; Cambridge fron and steel mills; Cambridge, O., 400; Canton rolling mills, Canton, O., 253; Chartiers iron and steel mills, Carne gle, Pa., 300; Dennison rolling mllls, Dennison, O., 350; Dresden iron and steel mills, Dresden, O., 300; Falcon iron and nail mills, Niles, O., 450; New Philadelphia mills, New Philadelphia, O., 700; Piqua rolling mills, Piqua, O., 600; Reeves iron mill, Canal Dover, O. 750; Struthers iron mills, Struthers, O., 400; Corning steel mills, Hammond, Ind., 300; Lauffman steel mills, Paulton, 200; Hyde Park steel mills, 350. Total 11,650.

Non-union sheet mills: Apollo iron and steel mills, Vandegrift, 3,600; Kirkpatrick mills, Leechburg, 550; Wellsville plate and sheet iron mills, Wellsville, O., 400; Scottdale iron and steel mills, Scottdale, Pa., 550. Total, 5,100. American Steel hoop company, 1,400; independent plants, 27 in num-Total number of men involved in strike, 35,450.

The American Steel Hoop company's main offices are in this city. The company has three nonunion plants in this city. The company has also a nonunion plant at Monessen and one at Duncanville, though the employes of the latter are ready for organization as soon as the Amalgamated people will take them in. Other plants of the company are claimed by the Amalgamated people as union. There are two at Youngstown, O., and one cach at Sharon, 'Girard, Greenville, Pomeroy, O., and Warren, O.

What the strike just inaugurated may eventually lead to is problematical. Three months ago when a strike occurred in the Wood plant of the American Sheet Steci company at Mc Keesport, because the company refused to allow its men to become members of the Amalgamated Association, President Shaffer threatened if the McKeesport strikers could not win with their own strength, he would order a strike in every plant of the conpany. If the latter would not yield !. would then call out the union in ever plant of the United States Steel corporation. Such a course would rust t in the biggest strike the country has ever seen, involving several hun h d thousand men.

Plans of the Strikers.

For the first few weeks the situation will not show the strength of the association. Almost all the plants of the company, unlen and nonunlen, wilt be compelled to shut down during the early part of July to give the men rest. They have been working strateily sine the first of the year, man; of them without a week's cospation. Union and ucaunion alike, th y ar demanding a short vacation, and the prediction is made that the companies will be unable to keep one at work for two or three weeks after Tursday. The heat is intense and the men, one vice president said, are almost in a state of revolt.

It will be after, perhaps, the first of August when the combine makes a serious attempt to start up in full that the real battle will begin if no settlement has been reached at that time. The company cannot well delay operating longer than that, on account of the present floods of orders. It is the boast of the Amalgamated Association officials that by that time they will control 80 per cent of the capacity of

the combination plants, Gradually the plans of President T. J. Shaffer of the Amalgamated Association are being uncovered. Since the trouble in the W. Deweese Wood mills in McKeesport, a few months ago, the Amalgamated Association has been actively engaged in breaking up hope to secure any reform from them. the present arrangement of the com. We must educate the masses."

bine in operating parts of their plants with nonunion men and the others with union men. Mr. Shaffer says that if this is not checked the life of the Amalgamated Association is threatened, for the combine will always work their union mills last and the union men will be sufferers by this.

The strike order against the American Sheet Steel company has been ordered because this portion of the United States Steel corporation has thus far stood out against the increase in union mills now recognized as union, to remain so. The American Steel Hoop company stands in the same position. Thus is arrayed against union organization, two branches of the United States Steel corporation.

The fight is not for wages, but for organization. Either the Amalgamated Association must bow to the will of the greater combine, or else the greater combine will have to give up its nonunion mills. Members of the advisory board of the Amalgamated Association declare that the Association has a surprise in store for the

Strike at Newport News.

Newport News, Va., July 1.-The striking machinists at the ship yard are adhering to their determination to hold out for their demands. The strike is now in its fifth week and seems no nearer a settlement than on the day of its inauguration. The machinists claim they have 98 per cent of the number solid for a continuance of the strike. The shippard employed 7,500 men before the present trouble. Now about 3,000 people are employed. General Superintenuent Post states that no concessions will be made.

Demands Granted. Binghamton, N. Y., July 1.-The strike of Erie boilermakers at Susquebanna, which has lasted six months, has been settled. The men, who number about 500, will return to work July 8. All the demands of the strikers, with the exception of abolition of piece work system, have been

## STRUCK ELEVEN BOYS.

Single Bolt of Lightning Does, Awful Work as a Chicago Pier.

A TWELFTH LAD FATALLY INJURED.

Party Had Been Swimming and Songht Sheller F om a Storm Under the Structure-Prostrutions by the intense Heat.

Chicago, July 1.—A single stroke of lightning killed 11 boys and probably fatally injured a twelfth. The flash occurred during a heavy thunder shower which broke over the city at 12:10 p. m. The boys, it is said, rushed to the pier at the foot of Montrose boulevard to seek shelter. Suddenly there was a great flash of lightning and people living in the vicinity heard a terrific crash. A policeman rushed to the scene and at a glance discovered that the bolt had demolished the pier, which was of heavy construction, precipitating the whole structure into the water. Knowing that the boys had gathered there, he called assistance and in half an hour all the bodies were recovered from the lake.

The boys were in swimming, having fied to the lake to escape the intense heat. When the rain began to fall and it became evident that a severe electrical storm was coming. they rushed to a shelter they had built on the pier while dressing and undressing. Willie Anderson, 12 years of age, was the only survivor, and he was badly hurt. He managed, however, to crawl to shore and was staggering along when he met the policeman who was already hurrying to the scene. In a few agonized gasps he gave the officer a bare idea of the horrible ending to an hour's sport, and then fainted. He was carried to a nearby house where medical assistance was rendered.

The stroke of lightning was the most powerful which has struck in this vicinity in years. The roar which followed it was deafening. The pier was demolished in a trice, giving the boys not the slightest chance of escape. In age, the bathers ranged from 12 to 25 years and evidently were from the poorer classes.

### EARNED, NOT BOUGHT.

Such Is the Reputation of "The Little Conqueror" in Maysville.

How hard it often is to earn and maintain a good reputation and how easy it is to lose one. As with a man's reputation so it is with other things in life. Some Maysville Monday on his way to Wedonia things achieve a reputation which stays with them. They are founded on intrinsic value. They face the public backed up by honesty and work their way quiet--Mrs. L. J. Moore, of Lexington, after ly but thoroughly. Maysville people want no better proof of merit than is contained in the following experience of a citizen:

Mr. C. L. Hubbard, dairyman, of 325 West Third street, says: "I have the greatest faith in Doan's Kidney Pills. The use of less than one box ended a disturbed condition of the kidneys and an intlammation of the bladder. After some time it returned, but in a lesser dedree, and I procured another box of Doan's Kidney Pills at J. James Wood -Mr. and Mrs. Charles Bratton and & Son's drug store. Use of it substantiated the opinion I had already formed of this effective preparation."

> Sold by all dealers. Price 50 cents per box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

> Remember the name, Doan's, and take no substitute.

> Bracken County Republicans have nominated the following:

Hou, John W. Bowman for Representative. Hon. Thomas H. Beil for County Judge. Mr. Thomas Grange for Sheriff, with Geo. W. Saibraith and Fred Meyer as bis deputies. Mr. John Relster for Jailer.

Mrs. Hattie Elliott for County School Superiuendent.

This Section Visited by a Severe Wind Storm Last Evening-Damage to Crops, Trees and Buildings,

Maysville people were given a bad scare for ten or fifteen minutes last evening. A young cyclone swept down on the city and things looked threatening for a short time. Limbs were torn from shade trees, some trees were uprooted and others were snapped off, and many momentarily expected to see serious damage done to buildings, but fortunately the wind subsided without any structure being wrecked.
